Looking after your wellbeing

You might be worried about coronavirus (also known as COVID-19) and how it could affect your life. This may include being asked to stay at home or avoid other people.

This might feel difficult or stressful. But there are lots of things you can try that could help your wellbeing.

Eat Well and Stay Hydrated

- Think about your diet. Your appetite might change if your routine changes, or if you're less active than you usually are. Eating regularly and keeping your blood sugar stable can help your mood and energy levels.
- Drink water regularly. Drinking enough water is important for your mental and physical health. Changing your routine might affect when you drink or what fluids you drink. It could help to set an alarm or use an app to remind you.

Connect with people - Stay in touch digitally

- Make plans to video chat with people or groups you'd normally see in person.
- You can also arrange phone calls or send instant messages or texts.
- If you're worried that you might run out of stuff to talk about, make a plan with someone to watch a show or read a book separately so that you can discuss it when you contact each other.

Try to keep active

Build physical activity into your daily routine, if possible. Most of us don't have exercise equipment like treadmills where we live, but there are still activities you can do. Exercising at home can be simple and there are options for most ages and abilities, such as:

cleaning your home dancing to music going up and down stairs online exercise

Get as much sunlight, fresh air and nature as you can

Spending time in green space or bringing nature into your everyday life can benefit your mental and physical wellbeing. It can improve your mood, reduce feelings of stress or anger, and make you feel more relaxed.

It's possible to still get these positive effects from nature while staying indoors at home. You could try: Spend time with the windows open to let in fresh air.

Arrange a comfortable space to sit, for example by a window where you can look out over a view of trees or the sky or watch birds and other animals.

Listen to natural sounds, like recordings or apps that play birdsong, ocean waves or rainfall. Get as much natural light as you can. Spend time in your garden if you have one or open your front or back door and sit on the doors.

10 MINUTES TO RECOGNISE THE GOOD STUFF

Things, people and places you like:

One thing that's going well for you right now:

One thing you've worked hard to achieve:

Two people you can count on for kind words or a warm hug:

Three things you're looking forward to:

Breathe out for 3

be mindful®

Breathe In. Breath Out –
Feel the flow of breath.

Be aware of every daily
activity (texting, working)

Pay attention to all
your senses – notice
taste, texture of food.

Go outdoors – Walk
around in nature.

As soon as the mind
wanders, bring it back
to your breath.

Forgive yourself for every
negative thought.

Empty the Mind –
Take a few
moments to be still.

Be grateful – say
thank you to nature,
people and things.

Practice non-
judgemental listening.

Go easy on yourself
with time, you will see
the progress.

Self-care

I need...

Rest/
Relaxation

- Listen to music
- Take a timeout
- Bubble Bath / Shower
- Take a nap
- Watch fave movie
- Read Book/ Magazine

Expression

- Draw / Paint
- Sing/ Dance
- Gardening
- Sports

Companionship

- Call a Friend
- Write a Letter
- Play with a pet
- Go for a walk with a friend
- Spend time with family

Health /
Spirituality

- Make a healthy snack
- Practice yoga
- Go for a walk/ run
- Mindfulness
- Positive Affirmations

Worry Tree

Try some Mindful Colouring... ✨

Mindful Colouring asks us to focus on how we choose and apply colour in a design to bring our awareness to the present moment. This process is similar to meditation, we let go of any thoughts about tomorrow or yesterday, or what we are going to do when we finish.

Mindfulness can improve our overall sense of well-being. We feel more relaxed by paying attention to the present moment. We are also practicing training our minds to focus which can help in our study and work.
